The incorporators met yesterday pursuant to notice, and organized by choosing as directors Capt. John McLure, W. D. Updegraff, John M. Sweeney, W. P. Hubbard and Henry Schmulbach. The Directors completed the organization of the company by electing Captala McLure President, J. E. Hughes Secretary and N. B. Scott Treasurer.

The company last evening intimated to Council that it was prepared to make to the city one of the most captivating offers ever made to any municipality. The company's communication was first presented in the Second Branch by Mr. Seeley, the well known member from the Fifth ward. The communication read as follows:

To the Honorable, the Mayor and the Connect of the City of Wheeling:

We have now completed the plans for new and first-class steel bridges connecting the city to the Island and to Æins-ville, and propose to proceed at once to their construction; and as it has been suggested to us that many citizens desired the city to secure free transportation for foot passengers to and from the Island, we would respectfully request that your honorable body appoint a committee to confer with Capt. John McLure, Henry Schmeilbach and John McSweney, a committee appointed by our Board of Directors for the purpose.

Respectfully yours,
J. E. Hours,
Secretary Wheeling Bridge Company.

This was accompanied by maps, plans and drawings of the proposed bridges and their approaches. They show as bridge crossing over the main channel of the river; which, with its approaches, starts on this side of the river from a point in Eleventh street near Main, and on the Island side at the intersection of Ohio and South Penn streets, and is 1,823 feet long. The bridge proper has three spans. The shore span on this side of the river is designed to be 225 feet; the Island shore span on this side of the river is designed to be 225 feet; the Island shore span apport the leight of the channel span above mean low water, is 90 3.10 feet; above high water, 40 feet; the height of the city shore span above the P. City Clerk Thoner presented his semi-monthly financial report, which was read in full, being the first report since the adoption of the annual appropriation ordinance. The apprepriations made by the ordinance aggregated \$359, 634 65; the several departments have expended thus far a total of \$85,024 56, leaving balances aggregating \$274,610 09. The Board of Public Works sent in a big grist of communications. The First recommended the payment of the following amounts on account of the Market street paying; 69c. Lemons, paying, \$2,290 16; Stobbs & Moore, curbing, \$2,290 16; Stobbs & Moore, curbing, \$2384 24; F. L. Hoge, surveying, \$57, total, \$3,270 40. The necessary appropriations were made.

The second communication called attention to the fact that the Finance Committee in the appropriation ordinance had overlooked one of last year's contracts, providing for the paying with brick of Alley 18 (old Paper Mil alley) from Main to Water street, and called attention to the further fact that the 1888 contract had been awarded to George Lemons. An appropriation was asked for this paying. Mr. Seeley ex-1888 contract had been awarded to George Lemons. An appropriation was asked for this paving. Mr. Seeley explained that in the past year the alley in question had been very nicely macadamized by the Warwick Pottery Company with pottery refuse, and the need of the proposed brick pavement thereby obviated. He had so informed the Finance Committee and at his suggestion provision for the paving of the alley had been omitted from the appropriation ordinance. After hearing this explanation, Council referred the matter back to the Board with instructions to have the contract cancelled on the best possible terms.

The Board reported that the Finance Committee had neglected to provide a sum sufficient to make needed repairs to the mouths of nearly all the Eighth ward sewers, which are in very bad shape. Bad with Eczema. Hair all gone. Scalp covered with eruptions a Thought his hair would never grow. Cured. by Cuticura Remedies. Hair splendid and not a pimple on him.

I cannot say enough in praise of the Cuticura Remedies. My boy, when one year of ace, was so had with eczema that he lost all of his hair. His scalp was covered with eruption, which the doctors said was scall head, and that his hair would have gone again. Lespairing of a cure would have gone again. Lespairing of a cure would have gone again. Lespairing of a cure remodies, and, I am happy to say, with the cure remodies, and, I am happy to say, with the cuticura Remedies. His hair is now apleadid, and there is not a pimple on him. I recommend the cuticura Remedies to mothers as the most speedy, economical, and sure cure for all skin desease of infants and children, and feel that every mother who has an afflicted child will thank me for so cioling.
